Introducción:
Traducción de la Biblia de los módulos del programa de software bíblica "The Word" de acuerdo con la versión RV1909 en dominio público.
Esta concordancia contiene todas las escrituras cuyas palabras individuales aparecen hasta 400 veces en la Biblia entera, excepto las dos palabras Jesús y Jerusalén.

Todas las palabras que aparecen más de 400 veces, no están incluidas en esta concordancia, pero aparecen en una lista al final del documento.

Si es requerido, el límite de 400 palabras puede ser adaptado. Pero surge la pregunta ¿cuál será un límite razonable? Pedidos o sugerencias por correo electrónico: gkadisch@gurt-der-wahrheit.org

Concordancias son una herramienta valiosa para estudiar la palabra de Dios. En esta edición el requerimiento de espacio fue especialmente considerado (para ahorrar papel).

Sólo en el índice se hace punto y aparte. Las palabras individuales se indican en negritas seguidas por las citas bíblicas. Esto ahorra aproximadamente 300 páginas de papel.

El acceso y uso de este documento es libre para el estudio individual bajo una donación voluntaria, pero ilegal en caso de uso y distribución comercial.
La distribución para el uso privado es deseable.

Las donaciones voluntarias a: BIC: HAABAT2K IBAN: AT19 5200 0000 0088 5940 lautend auf Gerhard Daniel Kadisch.
¡El Señor te lo va a recompensar!
